Board of Education and Citizens of the City of St. Louis
Saint Louis Public School District
801 N. 11th Street, St. Louis, MO 63101

Dear Board of Education and Citizens:

It is my pleasure, as the new superintendent of Saint Louis Public Schools (SLPS), to offer an overview of the District's annual operating budget for the fiscal year beginning July 1, 2023 and ending June 30, 2024. The District is in an excellent financial position, with a healthy fund balance and a history of more than 13 years of favorable financial audits.

The total proposed general operating budget (GOB) is \$325,000,000. The proposed budget for all funds is \$483,487,680. The proposed budget reflects direct student and teacher support made possible by federal funds awarded through the American Rescue Plan Elementary and Secondary School Emergency Relief (ESSER I, II, and III) Fund. ESSER funds are being leveraged to maximize our general operating budget, hire specialized personnel, and fund progressive and innovative programs for approximately 19,000 SLPS students, Pre-K through grade 12.

Looking ahead, our District will continue to benefit from ESSER funds supporting innovations in our academic spaces as well as building upgrades through Proposition S (August 2022, 87% passage), the no-tax increase bond issue that cleared the way for major projects to begin this year. In addition, to strong community support, we have also received strong legislative and partner support for projects and initiatives that will serve us well as we work to improve scores in literacy and math, college and career readiness, culture, and climate.

There is a great future to plan for and celebrate, but in order to put our work into perspective, we must remember and honor the past. Presently, we are planning an observance to remember October 24, 2022, when Central Visual and Performing Arts (CVPA) and Collegiate School of Medical and Bioscience (Collegiate) High Schools were the sites of a school shooting that claimed the lives of a promising student and a beloved teacher. Our trauma-informed work will continue to be a districtwide wellness priority.

The District remains committed to open communications and transparency and building trust within our community so I share information regularly with the Board and community. Each time, I become even more energized by the possibilities that lie before us as we work together to make remarkable things happen for the students, staff, and families of Saint Louis Public Schools.

Respectfully,

Keisha Scarlett, Ed.D.
Superintendent of Schools
Saint Louis Public Schools

VISION, MISSION AND CORE BELIEFS

Mission

We will provide a quality education for all students and enable them to realize their full intellectual potential.

Vision

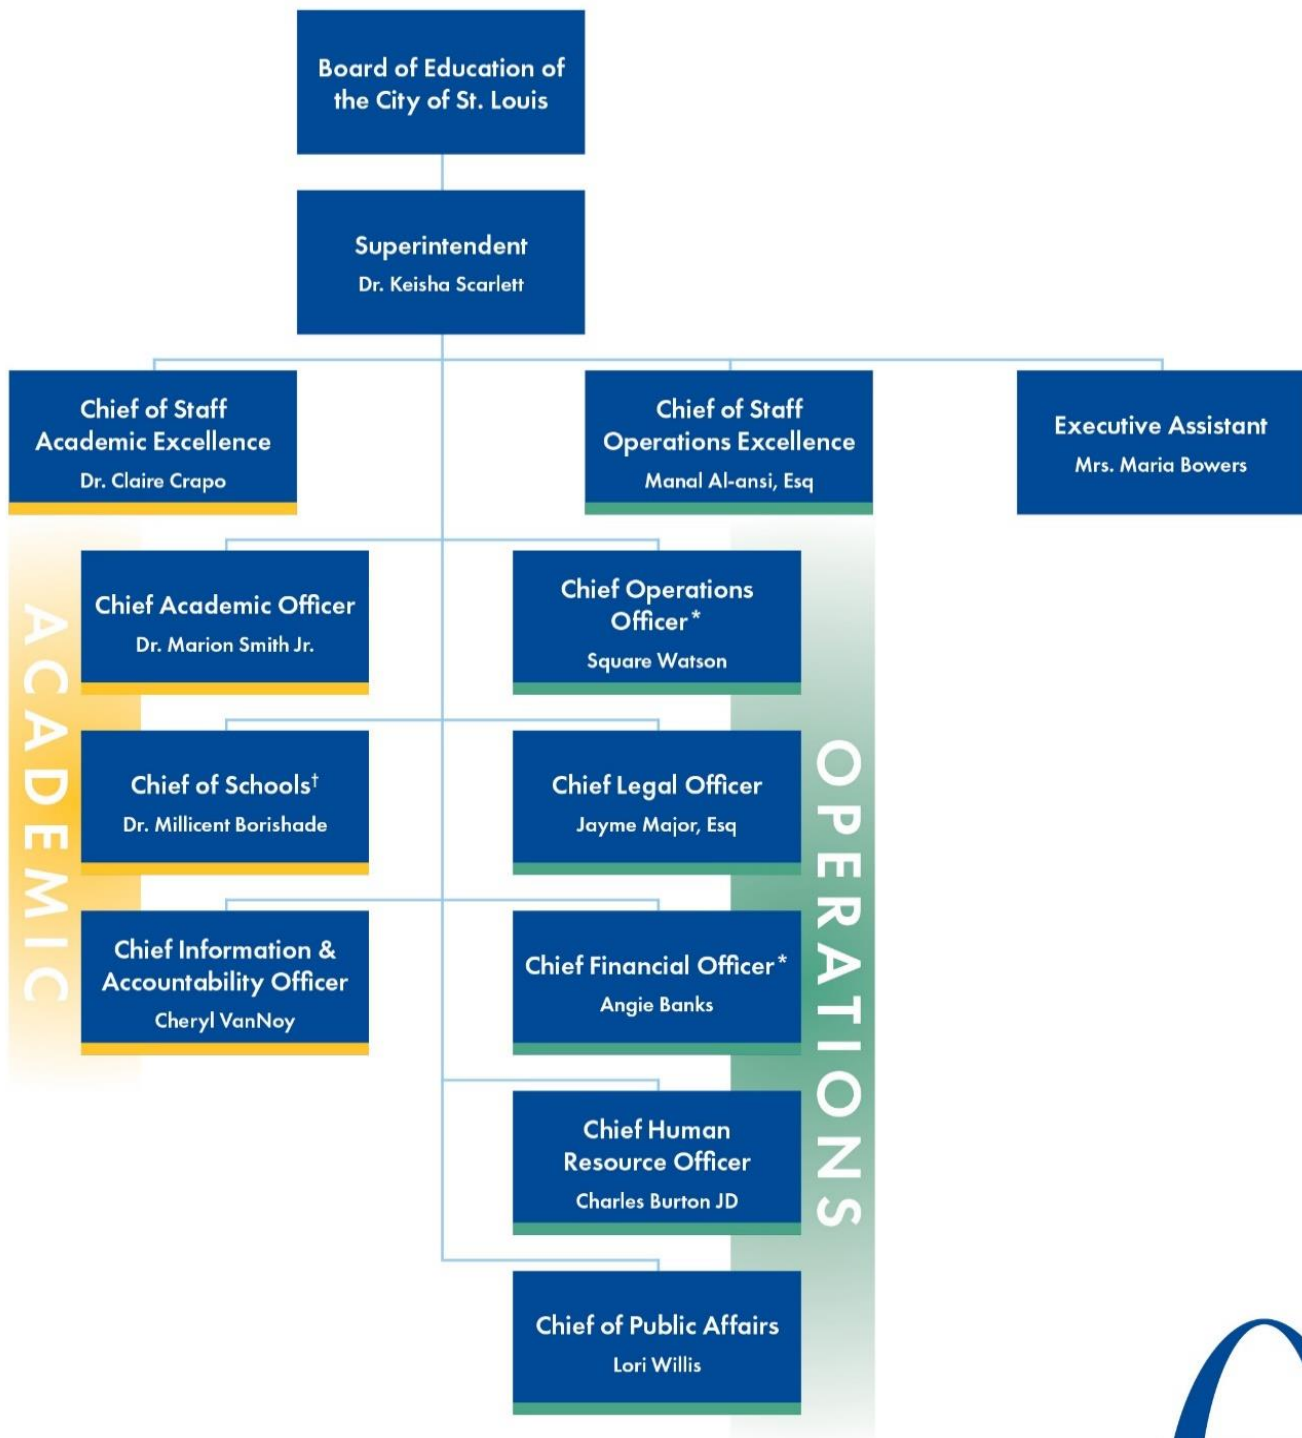

Saint Louis Public Schools is the district of choice for families in the St. Louis region that provides a world-class education and is nationally recognized as a leader in student achievement and teacher quality.

Core Beliefs

- All children can learn, regardless of their socio-economic status, race, or gender
- The African American Achievement Gap can be eliminated
- Parents must be included in the education process
- Competent, caring, properly supported teachers are essential to student learning
- The community must be involved in encouraging high achievement for all children
- The Saint Louis Public Schools are obligated to help students overcome any obstacles that may hinder their learning by forming partnerships with the entire community

SAINT LOUIS PUBLIC SCHOOLS ORGANIZATIONAL CHART

*Leadership contacts in absence of Superintendent.
†Formerly Student Support Services.

DISTRICT OVERVIEW

Saint Louis Public Schools (SLPS) is the one of the largest school districts in the region and the state, serving nearly 19,000 students in pre-kindergarten through grade 12. SLPS is governed by the seven-member elected Board of Education of the City of St. Louis.

SLPS was originally organized in 1833. In 1838, the District opened its first school, and in 1853, the District opened the first co-educational high school west of the Mississippi River.

Among its historic accomplishments, SLPS is known for two of the nation’s firsts: the first successful public kindergarten in the United States was opened by Susan Blow in 1873, and the first high school for African American students west of the Mississippi River—Charles Sumner High School—opened in 1875.

Students in SLPS have many options. They may select their neighborhood school or apply for a variety of magnet and choice schools with special themes or curricula. Additionally, the District offers a program for refugees and other newcomers to the United States, a virtual school program for students who excel in a non-traditional schooling environment, schools for medically fragile students and the Fresh Start program for students ages 17-20 who seek to earn a high school diploma.

Our City. Our Schools. Our Future.

HISTORY OF GOVERNANCE: SLPS has been governed by the seven-member elected Board of Education of the City of St. Louis since July 1, 2019. An appointed Special Administrative Board governed the District from June 15, 2007 to June, 30, 2019.

DISTRICT ACCREDITATION: On January 10, 2017, after noting improvements in leadership stability; assessment; data collection; federal compliance; curriculum alignment, instruction and professional development; and financial management, the State Board of Education voted unanimously to restore the District to full accreditation status.

EARLY CHILDHOOD PROGRAM: The SLPS Early Childhood Education (ECE) Program is a tuition-free, full-day program for children of City of St. Louis residents between the ages of 3-5 years old. In the 2022 - 2023 school year, the District served over 1,800 students, providing a quality early childhood education taught by certified teachers at no cost to resident families. Improved educational outcomes and kindergarten readiness are the focus of ECE. Instructional outcomes and facilities for the pre-kindergarten experience follow licensing guidelines and best practices/policies issued by the State of Missouri.

SPECIAL EDUCATION PROGRAM: Local school districts are responsible for ensuring a Free Appropriate Public Education (FAPE) for students requiring special education services. Special education services were federally mandated in 1975 by the passage of the Education for All Handicapped Children Act. This legislation was later modified and became the Individuals with Disabilities Education Act (IDEA). IDEA requires states to provide services for children with special education needs as a condition of receiving federal funds. The SLPS budget for Special Education is a combination of state, local and federal funds and is used to serve the needs of approximately 2,459 students between the ages of 3-21. At all grade levels there is a range of services for special education and guidance services. In addition, the District operates alternative programs for students with specialized needs.

ENGLISH AS A SECOND LANGUAGE: The ESOL/Bilingual/Migrant program provides services to English language learners (ELLs) and their families so that ELL students can achieve academically to their highest ability. Program teachers provide English language and academic content instruction to ELL students in kindergarten through grade 12. Currently, the district serves more than 2500 ELL students districtwide from over 60 countries and collectively speaking over 50 languages. There are 19 schools in the district that have a high percentage of ELLs.

These schools are referred to as ESOL centers. There are nine elementary school ESOL centers, four middle school ESOL centers, three high school ESOL centers and three newcomer ESOL centers for the District's newest ELL students.

MAGNET SCHOOLS:

Within the District’s elementary, middle and high schools, there are 28 magnet schools. In addition to a basic curriculum, magnet schools offer a specific focus, making it possible to match a student’s unique needs or interests with a compatible teaching method and/or emphasis. Offerings include gifted education, STEM, visual and performing arts, bioscience, entrepreneurship and international studies. The District operates 14 magnet elementary schools, 7 magnet and choice middle schools and 7 magnet and choice high schools. Magnet high schools have entrance requirements.

CAREER AND TECHNICAL EDUCATION:

Career and Technical Education (CTE) provides students with the academic and technical skills, knowledge and training necessary to succeed in future careers and to become lifelong learners. In total, about 12.5 million high school and college students are enrolled in CTE across the nation. CTE prepares these learners for the world of work by introducing them to workplace competencies, and makes academic content accessible to students by providing it in a hands-on context. CTE at SLPS includes more than 30 programs within various technical subject areas. Programs are required to have a current, industry-based curriculum supported by a sequence of courses, an applicable technical skills assessment, student organization affiliation, and a transition agreement to post-secondary education training.

DUAL ENROLLMENT: The District partners local higher education institutions, including St. Louis Community College at Forest Park, Harris-Stowe State University, and the University of Missouri - St. Louis to provide dual- enrollment programs. Participating students are enrolled in both high school classes and college courses. Students attend classes on campus and are still allowed to participate in their high school extra-curricular activities. Students who successfully complete the dual-enrollment program at STLCC at Forest Park (Early College Academy) graduate with a high school diploma, as well as an Associate’s Degree General Transfer. Students who successfully complete the other programs graduate with a high school diploma and college credit.

BUDGETARY OVERVIEW

Statement of Missouri Statute

Revised Statutes of Missouri (RSMO) Section 67.010. Political subdivisions to prepare annual budget – contents – expenditures not to exceed revenues, establishes the legal basis for budget development for public school districts in the State of Missouri. The following are the legal requirements as outlined in the Statute.

1. Each political subdivision of this state, as defined in section 70.120, except those required to prepare an annual budget by chapter 50 and section 165.191, shall prepare an annual budget. The annual budget shall present a complete financial plan for the ensuing budget year, and shall include at least the following information:

- 1 A budget message describing the important features of the budget and major changes from the preceding year;
- 2 Estimated revenues to be received from all sources for the budget year, with a comparative statement of actual or estimated revenues for the two years next preceding, itemized by year, fund, and source;
- 3 Proposed expenditures for each department, office, commission, and other classification for the budget year, together with a comparative statement of actual or estimated expenditures for the two years next preceding, itemized by year, fund, activity, and object;
- 4 The amount required for the payment of interest, amortization, and redemption charges on the debt of the political subdivision;
- 5 A general budget summary.

2. In no event shall the total proposed expenditures from any fund exceed the estimated revenues to be received plus any unencumbered balance or less and deficit estimated for the beginning of the budget year. Provided, that nothing herein shall be construed as requiring any political subdivision to use any cash balance as current revenue or to change from a cash basis of financing its expenditures.

FUNDS AND FUND TYPES

The annual budget for Saint Louis Public Schools is prepared and organized on the basis of funds. A fund is an independent fiscal and accounting entity that is comprised of its own assets, liabilities, fund balance, revenues, and expenditures. In accordance with Chapter 165, RSMO, school districts in Missouri are required to budget and account for monies under the framework of four funds: (1) Incidental Fund, (2) Teachers Fund, (3) Debt Service Fund, and (4) Capital Projects Fund. Under the guidelines set forth by the Missouri Department of Elementary and Secondary (DESE) in the Missouri Accounting Manual, Saint Louis Public Schools establishes the annual budget based on the following fund type structures: Governmental, Proprietary, and Fiduciary.

GOVERNMENTAL FUND TYPES

Governmental funds are those through which most governmental functions typically are financed. The acquisition, use, and balances of the government's expendable financial resources and the related current liabilities, except those accounted for in Proprietary Funds, are accounted for through governmental funds. The following is a list of the major governmental fund types and descriptions for the funds that are budgeted on an annual basis:

General Fund (Incidental Fund) – a fund used to account for all financial resources except those required to be accounted for in another fund. This fund accounts for transactions involving local taxes; Foundation Program payments such as Basic Formula, Transportation, Early Childhood Special Education, along with various other transactions associated with federal projects.

Special Revenue Fund (Teachers Fund) – a special revenue fund used to account for financial resources and expenditures for certified employees involved in administration and instruction. It includes revenues restricted by the State of Missouri and taxes allocated to the fund based on the District's tax levy to be used for the payment of teachers' salaries, related benefits, and tuition for students.

Capital Projects Fund – a fund used to account for all facility acquisition, construction, lease purchase principal and interest payments and other capital outlay expenditures. Expenses in this fund shall be capitalized.

Debt Service – a fund used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

The other governmental funds of the District are considered non-major. These funds are special revenue and permanent funds that include grant and other resources that are restricted to a particular purpose.

PROPRIETARY FUND TYPES

Proprietary funds are used to account for ongoing organizations and activities, which are similar to those often found in the private sector. An Internal Service Fund is used to account for costs of the District's limited self-insurance program and to account for the activities of the SLPS Health Benefits Trust. The SLPS Health Benefits Trust accumulates resources for the payment of health and welfare benefits primarily on behalf of and for the benefit of the District's employees, retirees and their dependents.

FIDUCIARY FUND TYPES

Fiduciary funds are used to account for transactions related to amounts received in an agency capacity on behalf of individuals, private organizations, and other governmental units. The District has no equity interest in this fund. The District's agency fund is used to account for monies placed in escrow that represent the District's retirement contribution to the Public School Retirement System of the City of Saint Louis.

BASIS OF ACCOUNTING AND FINANCIAL REPORTING

Annual budgets for the activities of the major funds (General Fund, Special Revenue Fund, Capital Projects, and Debt Service Fund) are prepared on an accrual basis of accounting, a basis consistent with generally accepted accounting principles (GAAP). The basis of accounting for the District's basic financial statements varies and depends on the report type and reporting period during the fiscal year. The basic financial statements consist of government-wide statements, which includes a statement of net position and a statement of activities and fund financial statements, which provides a more detailed level of financial information for the major funds. Government-wide financial statements are presented on an accrual basis. However, during the fiscal year, the fund financial statements are presented on a cash basis and on a modified accrual basis at the end of the fiscal year.

Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when the liability is incurred. It is important to note that property tax revenues and other governmental fund financial resources are recognized under the "susceptible to accrual" concept. Property taxes are the largest revenue source for the District, and they are recognized in the year for which levied. The District generally considers property taxes available if they are due before year-end and are collected within 60 days after year-end. Additionally, grants are similar, and recognized when all eligibility requirements imposed by the grantor have been met. Grant revenues are recognized when reimbursable expenditures are made, except in the School Lunchroom Fund where revenue recognized based on the number of children served. Charges for services and miscellaneous revenues are recorded as revenues when received in cash because they are generally not measurable until received. Investment earnings are recorded as earned since they are measurable and available.

BUDGET DOCUMENT AND PROCESS

The budget is the official historical record and financial planning document for the District. It is prepared annually and in accordance with local, state, and federal mandates, statutes, and policies. The budget provides information on the academic and operational initiatives and priorities. It also conveys the District’s financial strategy to the governing body, administration, staff, community, and other stakeholders. The annual budget is prepared and approved prior to the beginning of the fiscal year, which begins on July 1. The annual budget is adjusted throughout the fiscal year through formal approvals and budgetary adjustments. These activities enable the District’s administration to make changes to the budget to help meet the needs of its students and enhance their educational experience.

The budget process is cyclical and ongoing in nature with activities performed throughout the entire fiscal year (July 1 to June 30). The budgeting process is comprised of five major phases: (1) Planning, (2) Preparation, (3) Adoption, (4) Implementation, and (5) Evaluation. The focus of the budgeting process is to align the District’s financial and human resources with academic and operational plans, and to ensure that the District meets the statutory obligations and requirements for approving and adopting the annual budget.

Budget Planning (OCTOBER – FEBRUARY)

The Budget Planning phase is initiated with the establishment of the budget calendar. The budget calendar establishes the annual process and provides a schedule for all activities required for developing the annual budget. The budget calendar is prepared and distributed by October.

A major component of the annual planning process is the review of the District’s long-term financial modeling tool. The District recognizes the necessity of prudent management of its finances in order to ensure its long-term viability for students and communities. As a result, the District is committed to a long-term financial planning approach. The staff in the Finance Division frequently reports on the District’s five-year financial outlook which takes into consideration various enrollment and financial scenarios that may affect local, state, and federal resources. The information derived from these scenarios gives District leaders and the Board of Education relevant financial data for long-term strategic planning. This information may also influence decisions regarding the District’s current and future priorities and initiatives.

Budget Preparation (MARCH – APRIL)

Through strategic planning, the District establishes annual priorities and initiatives for the upcoming year. In the Finance Division, the staff analyzes projected revenue estimates determined by long-term forecasting to allocate resources to support the District’s strategic plans. Appropriation levels are determined for schools and central office divisions and departments to support anticipated expenditures.

District staff positions are funded from the general and grant operating budgets. Most positions allocated to school locations are funded from the General Operating Budget (GOB), and are determined based on a human resources allocation model. This staffing model is designed to ensure the dual aim of ensuring equity in the distribution of District resources and compliance with the Missouri Department of Elementary and Secondary Education standards. The staffing model uses the mid-point average between the Minimum and Desirable Pupil-Teacher-Ratios (PTRs). Grant funded positions at the school level are allocated based on program requirements, specific school needs, and District initiatives. Positions allocated at the central office level are primarily funded by General Operating Budget, and are determined based on human resource needs and District initiatives. Other central office positions are funded from grant resources.

Building principals and central office leaders meet annually with the Human Resources and Finance Division staff to clarify human resource allocations, address staffing concerns, and request additional resources. Additional requests beyond the initial allocations may be allocated based on needs assessments administered by school and central office administrators. All needs assessment-based allocations require approval from the Superintendent. The full-time equivalent (FTE) count of budgeted personnel is presented in detail as part of the annual budget. Pursuant to Missouri State Law, the proposed annual budget must be balanced, meaning the approved estimated expenditures for each fund cannot exceed the estimated available revenues to be received plus any unencumbered balances or less any deficits estimated for the beginning of the budget year.

The finance staff prepares and distributes electronic budget development workbooks to building principals and central office leaders. The budget development workbooks assist leaders with aligning academic and operational plans with resources and provide guidance on how to allocate discretionary resources to the various budgetary line items. Budget development workbooks are submitted for review and approval by the Superintendent and executive leadership staff. The finance staff compiles and reviews the budget development workbooks for quality control checks. All budgets are then aggregated by the various account code segments including (but not limited to) fund, location, function, and object code.

Community engagement and involvement of internal and external stakeholders is essential during the preparation phase of the budget process. The priorities and initiatives of the District are discussed openly, and a preliminary budget is presented to the Board of Education for consideration by March. The preliminary budget is published for public display and public forums

are held for stakeholders. During the public forum, the District solicits feedback and input from stakeholders. Stakeholders are also encouraged to provide feedback through electronic forums established by the District. The Board of Education reviews the preliminary annual budget and may conduct additional special meetings and forums as needed to clarify and address questions concerning the proposed budget. Prior to the final approval and adoption, the Board of Education may recommend additional adjustments to the preliminary budget.

Budget Adoption (MAY – JUNE)

In May, the Superintendent presents the final budget for the ensuing year to the Board of Education for approval. After the final annual budget is approved by the Board of Education, the final budget is adopted through the required legal process. The adoption of the annual budget occurs on or before June 30.

Budget Implementation (JULY – JUNE)

Passage of the motion to adopt the annual budget authorizes the approved revenues and expenditures. Budgets and staffing data for schools and central office locations are loaded into the enterprise resource planning (ERP) system for use during the fiscal year.

Budget Evaluation (JULY – JUNE)

Throughout the fiscal year, staff allocations are evaluated, and adjustments are made based on staffing needs, compliance, and equity concerns. In September, school staff allocations are reviewed to address staffing concerns influenced by differences in projected versus actual student enrollment and changes in instructional and support staff. Budgets may be revised to reflect the approved staffing adjustments.

Budgetary reports, including a budget versus actual report are made available to assist school and central office leaders with ongoing monitoring of location resources. Additionally, staff in the Finance Division monitors and adjusts budgets to ensure compliance with statutory and local policies. During the fiscal year, the Board of Education will approve budget adjustments in accordance to policy and statute. Occasionally, there may be significant adjustments that will require a budget amendment. In this instance, the Superintendent will present an amended budget to the Board of Education for formal approval and adoption of the amended budget in accordance with the legal requirements as established by statute.

BUDGETARY CONTROLS

The District administration is responsible for establishing and maintaining an internal control structure designed to ensure that the District's assets are protected from loss, theft, and misuse. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. Budgetary control is established at the administration level and supports the assurances outlined above. Additionally, budgetary controls are established to ensure compliance with legal provisions embodied in the annual appropriated budget approved and adopted by the Board of Education.

The level of budgetary control (the level at which expenditures cannot exceed the appropriated budget) is established at the fund level within each fund group. The District uses an encumbrance accounting system to facilitate budgetary control. The ERP system modules and features are designed to assist the administration with reviewing and performing the necessary budgetary checks that help control and prevent expenditures from exceeding budgeted amounts. Budgetary reports are used to assist the administration with performing budgetary control activities. Based on the District's policy, the District may budget more expenditures than revenues, provided that sufficient unrestricted fund balance is available to cover such expenditures.

BUDGET ADOPTION

The 2023-2024 Annual Budget for Saint Louis Public Schools (SLPS) was adopted on June 13, 2023 by the Board of Education of the City of St. Louis. The District's Board of Education, which consists of seven members elected by the citizens of Saint Louis City returned to governance on July 1, 2019. As the governing body of Saint Louis Public Schools, the Board of Education has assumed all governing responsibilities including the approval of the preliminary budget and the adoption of the annual budget.

STRATEGIC PLANNING AND BUDGETING

Saint Louis Public Schools is committed to long-range strategic and financial planning. The District uses financial and staffing modeling tools to promote multi-year planning for the allocation of budgeted resources. The planning tools inform and support the strategic plans for the District. The District recently concluded its third year of planning and evaluation of work performed under Transformation Plan 4.0, the District's strategic plan. Throughout FY2024, the District will continue to examine and align its activities with the five pillars that will allow the District to operate at a higher level, develop an inclusive environment for students and staff, and relentlessly use data to accomplish our goals. The five pillars are as follows:

- The District supports a system of excellent schools.
- The District advances fairness and equity across its system.
- The District cultivates teachers and leaders who foster effective, culturally responsive learning environments .
- All students learn to read and succeed.
- Community partnerships and resources support the District's Transformation Plan.

The Transformation Plan has significantly influenced the development of the annual budget. Beginning in FY2015-2016, the finance staff was charged with managing the Budget Alignment Project developed under Transformation Plan 2.0. The Budget Alignment Project was established to support Goal: 1.2, SLPS will be financially sound and have a 10% unrestricted funds balance by 2019. The project focused on increasing awareness of the budget cycle and timeliness, and improving the activities associated with the budget process including, but not limited to, enhancing activities associated with budget planning, development, monitoring, and evaluation.

The Fund Balance Policy was updated in Fiscal Year 2021 to maintain an unrestricted fund balance of 30%. At the conclusion of FY2023, the District anticipates that the estimated unrestricted fund balance will be approximately 52% as defined by the Department of Elementary and Secondary Education (DESE). Additionally, the District remains financially stable and continues to increase awareness of the budget cycle and budgetary processes. During the planning and preparation of the annual budget, deliberate efforts were taken to ensure that the academic and operational plans and budgets aligned with the Transformation Plan 4.0. Leaders and other budget managers were asked to evaluate academic and operating plans to ensure alignment with the five pillars of the strategic plan. Specifically, as new budgetary items are presented and renewed, leaders and budget managers are required to identify how these items align with the five pillars. As a result, the annual budget includes initiatives and programs that align with at least one of the five pillars in the strategic plan.

ACCOUNTING STRUCTURE

The Missouri Department of Elementary and Secondary Education (DESE) introduced a new accounting structure that became effective on July 1, 2018. Since the change to the new accounting structure, DESE has released an updated accounting manual that became effective on July 1, 2019. The guidelines for the latest account structure are found in the Missouri Financial Accounting Manual. The Manual provides an overview and detail information on how the account code should be structured for school districts and charter schools in Missouri. According to DESE, the overall account code structure is designed to standardize account coding across the state. It also creates a common accounting language used to support the controlling, recording, accumulating, and reporting of the financial activities for school districts and charter schools throughout the state. The account structure includes the following segments: fund type, function code, object code, location code, sources of funds, project code, and dollar amount.

The Saint Louis Public Schools finance staff continues to better align the accounting structure with the DESE Financial Accounting Manual, and to improve reporting, and user access. All financial accounts included on the reports and documents in the FY2023-2024 Budget Book are based on the accounting structure as outlined in the DESE Financial Accounting Manual.

TAX LEVY

Proposition 1: On April 5, 2016, voters overwhelmingly approved Proposition 1, the first operating tax levy increase to support SLPS in 25 years. Proposition 1 funds will be used to continue offering early childhood education, expand character and alternative education options, improve safety and security equipment and personnel, and offer competitive salaries to teachers and staff. The additional \$0.75 per \$100 of assessed valuation of tangible real and property taxes will generate an estimated \$28 million per year for SLPS and charter schools in St. Louis City. The operating tax rate supports general school operations while the debt rate supports the principal and debt payments on outstanding bonds. The chart below shows the estimated operating and debt tax rates for FY2023-24 and the previous five years. The District Administration will propose the 2023 Tax Levy to the Board of Education for approval on September 26, 2023 in accordance with local statute.

*estimated

DEBT LIMITATION, CAPACITY, SCHEDULES

The total principal amount of general obligation indebtedness in the District cannot exceed 15% of the value of taxable tangible property in the District according to the last completed assessment for state and county purposes at the time such bonds are approved by the voters. Based on

\$4,771,272,071 net assessed valuation as of January 1, 2022, the current legal debt limit of the District is approximately \$715,690,811, excluding state-assessed railroad and utility valuation and the District's available Debt Service Fund Balance. The total outstanding general obligation

indebtedness of the District is \$278,979,000, resulting in a legal debt margin of the District of approximately \$436,711,811.

Saint Louis Public Schools Summary of All Outstanding Debt as of April 4, 2023					
Date of Issue	Description	Original Par Amount	Principal Outstanding	First Call Date	First Call Price
<i>General Obligation Bonds</i>					
December 21, 2010	Taxable General Obligation QSCBs, Series 2010A	\$ 56,644,000	\$ 50,644,000	Non-Callable	NA
October 4, 2011	Taxable General Obligation QZABs, Series 2011A	35,000,000	35,000,000	Non-Callable	NA
December 28, 2017	General Obligation Refunding Bonds, Series 2017	61,945,000	48,950,000	4/1/2026	100%
March 23, 2022	General Obligation Refunding Bonds, Series 2022	20,265,000	9,385,000	Non-Callable	NA

REVENUE SOURCES AND ASSUMPTIONS

Saint Louis Public Schools has four sources of revenue: local, county, state, and federal. The largest components of local revenues are derived from taxes on commercial and residential property and a sales tax applied to transactions during the fiscal year. County revenues are primarily taxes from railroad and utility properties assessed by the state. State funding is based on state legislative appropriations determined through a finance system defined in statute along with state-funded grants. Federal funds are appropriated by the U. S. Congress, usually for a specific purpose. The district groups related revenue funds into fund categories for reporting purposes. Each fund category may include one or more sources of revenue. The six revenue fund categories include the following: General Operating Budget (GOB), State and Federal Grants, Food Service, Local Grants, General Obligation Bonds, and Debt Service.

Student enrollment and attendance are significant drivers for most sources of revenue. The District uses the Cohort Survival Method to project enrollment. The 2023-2024 Budget was prepared and based on September 2022 enrollment projections (later revised in January 2023). Kindergarten through grade twelve student enrollment is anticipated to be 16,752, representing a 3.0 percent decline in FY2024 from the prior year. Pre-kindergarten enrollment will push total district enrollment to approximately 18,577.

STUDENT ENROLLMENT

FY2019-20 THROUGH FY2023-24 (PROJECTED)

The St. Louis City Department of Health imposed a stay-at-home order in March 2020 due to the COVID-19 pandemic. All District schools were closed to in-class student learning, ultimately for the remainder of the fiscal year, and a new era of virtual instruction ensued. Families were provided three student learning options for the 2020- 2021 school year: home based virtual instruction led by St. Louis Public School teachers, school based virtual instruction at newly created Instructional Support Centers (ISCs), and self-guided online learning on the Edmentum platform. Lower than anticipated student enrollment and in-person instruction for the 2020-2021 school year confirmed the challenges cited by many families during the pandemic driven virtual environment. 100% in-person instruction returned for the majority of FY2021-2022 and all of FY2022-2023.

Local and county revenues are largely driven by property and sales taxes. Property taxes are approximately 60% of the revenue budget and were estimated to increase by 0.5%. Sales taxes, another significant revenue source at 10%, was estimated to decline by 3%. Other local revenues include local grants, reimbursements, fees and miscellaneous payments including the sale of school buildings. Overall, local and county revenues were estimated to remain flat as compared to FY2023. The District has lost significant tax revenue over the years due to tax incentive financed (TIF) projects, many of which run for twenty years.

State revenues have declined considerably over the years and consist primarily of Basic Formula, transportation, early childhood special education and funds for extremely high need special education students. Like all revenues, these funds are driven by student enrollment. State budgets were heavily impacted by the pandemic requiring state funding reductions at the end of FY2020 and the beginning of FY2021. Fortunately, Basic Formula funding rebounded to full funding since FY2022

The District's Basic Formula funding is offset by DESE to pay charter schools' their portion of local effort. All local effort is paid directly to the District. A funding cliff where the District Basic Formula is less than the charter local effort was nearly realized in FY2022. New legislation, HB1552, thwarted further reductions in district revenue by providing State funding to cover the charter funding deficits.

Federal revenues show the most potential growth on an annual comparative basis. These are mostly entitlement grants, food service, and Medicaid. Elementary and Secondary Emergency Relief Funds (ESSER I) funds were provided to combat the challenges created by the COVID-19 pandemic. The District received an allocation of more than \$10.7 million for District students and another \$3.2 million for non-public school students within the City of St. Louis. The allocation was received in May 2020 and was spent on eligible expenses by June 30, 2021. All ESSER I funds were spent by June 30, 2022. Two additional federal stimulus relief appropriations were announced for the district: \$46 million in Coronavirus Response and Relief Supplemental Appropriations (ESSER II) and \$103.3 million in American Rescue Plan Act Funds (ESSER III). The \$46M allocation of ESSERII funds were expended by September, 30, 2023.

The remaining \$60M of ESSER III funds are budgeted in FY2024 for Academic programs and services (40%), Facilities projects (25%), retention incentives (25%) and technology and other programs (10%).

EXPENDITURE USES AND ASSUMPTIONS

The expenditure budget for FY2024 was developed with student needs as the highest priority and in collaboration with school and District leadership. Expenditures are also grouped into related funds: General Operating Budget (GOB), Expansion, State and Federal Grants, Food Service, Local Grants and Debt Service. Each fund within the fund grouping is further divided into object categories for reporting purposes including salaries, benefits, purchased services, supplies and material, capital outlay and debt.

Payroll expenditures, salaries and benefits, encompass 53.5% of total expenditures, while non-payroll expenditures are just under 46.5%. The District employs nearly 3,300 full-time, part-time and substitute staff. Approximately 44% are certified teachers. Below is a chart of budgeted full-time staff by category for FY2024 as compared to FY2023:

Staffing Category	FY 2023	FY 2024	% Change
Certified Administrator	116	124	6.8%
Certified Support Staff	471	360	-23.5%
Certified Teachers	1478	1411	-4.5%
Custodial Maintenance	250	182	-27.0%
Non-Certified Administrators	94	49	-47.8%
Professional and Technical	208	188	-9.6%
Safety Officers	112	131	16.9%
Secretary and Clerical	133	117	-12.0%
Support Staff	257	286	11.0%
Teacher Aide	272	405	44.8%
Total	3391	3253	-4.1%

The major expenditure categories for non-payroll expenditures include purchased services, supplies and materials, capital outlay and debt. The Administration helps to control expenditure costs by evaluating existing programs and contracts. The District leverages buying power for the procurement of goods and services by participating in cooperative purchasing organizations and competitive procurement processes including the solicitation of quotes, Invitation for Bids (IFB), and Requests for Proposals (RFP). Additionally, the District may negotiate contracts with vendors and take advantage of contracts for commodities that have been negotiated for schools and other non-profit government agencies.

Many of the typical expenditures budgeted for FY2024 will be enhanced with additional

COVID-19 funding. Shifts in spending priorities to address student needs will include more focus on unfinished learning, social and emotional well-being, and updating to 21st century classrooms.

THE DISTRICT BUDGET

The FY2024 District Budget consists of twelve different funds that are grouped into five categories: 1) General Operating Budget (GOB), 2) Federal, 3) Food Service, 4) Trust and 5) Debt Service. Additional fund groupings are often made for reporting or convenience purposes. The operating budget includes all fund categories except Debt Service. The operating funds are used in the daily operations of the District. The grant funds include Federal, Food Service, and Trust. The graphic below identifies the various funds, fund numbers, categories, and groupings used to properly align the District funds with the Department of Elementary and Secondary Education (DESE). The chart highlights the funds and terminology generally used for monthly Board reporting.

SLPS Funds	General	Teachers	Debt	Capital
GOB	110	210		410
State & Federal	150	250		450
Food Service	140			440
Local Grants	160	260		460
Debt Service			310	
Bonds - PropS				923

The General Operating Budget is approximately 67% of the total budget and is the least restrictive of all funds. The GOB provides resources to support the various initiatives outlined in the Transformation Plan 4.0. and is intended to support the District’s academic and operational plans to ensure that students receive the best educational experience. GOB supports the required daily operations of the District that are not funded by local, state, or federal grants. The District receives nearly 100 State and Federal, Food Service and Trust grants representing 22% of the total budget. The District’s largest grants are provided through federal program sources and include, but are not limited to, Title grants, the Individuals with Disabilities Education Act (IDEA) grant for Special Education, the Early Childhood Special Education (ECSE) grant, ESSER (Elementary and Secondary School Emergency Fund) and funds provided under the Food and Nutrition Services programs. Trust grant funds are gifts, contributions, and donations used to fund specific programs and schools. The Debt Service fund is reserved to pay the principal, interest, and fees on the District’s outstanding general obligation bonds.

The following table compares the FY2024 budget to the previous two fiscal year expenditures by fund.

BUDGET BY FUND (ALL FUNDS)

GENERAL OPERATING BUDGET (GOB)

The General Operating Budget (GOB) represents the largest fund category of the District's budget. The GOB is separated into three of the primary fund types: 110 (General Fund), 210 (Teachers Fund), and 410 (Capital Fund). These funds are allocated and expended throughout the District at the various sites and central office locations. GOB pays for lower-cost items like postage and printing through the larger cost items including salaries and benefits, transportation, and utilities.

GRANT BUDGETS

Student achievement and success is only a dream without funding. Unfortunately, no school district can solely rely on general funds to fully support its programming and other opportunities that are necessary to meet the academic, behavioral, college/career, and social/emotional needs of our students, teachers, families, and community. Grant funding is essential to K-12 education as this funding stream brings extra dollars directly into the classroom.

To meet those needs and carry forward the objectives of the District's Transformation 4.0 Plan, it is imperative that Federal, State, and Local grant dollars be leveraged for maximum utilization. Depending on the grant, these funds can support efforts in literacy, STEM, technology, curriculum, equipment, materials, or staffing. In a district with a high deprivation rate such as ours, grants become more than just a critical aspect of providing equitable opportunities, they are essential. Leveraging grant opportunities that provide additional funding has been proven to benefit students and districts as a whole. When district funding can be utilized for smaller class sizes and additional instructional supports, the outcomes improve dramatically, especially for minority and low-income students.

The District has a wide range of grants from Federal entitlement grants to local funders supporting a specific initiative that they are passionate about. Our Federal grants make up the biggest portion of our grant dollars. Annually, we receive approximately \$50 million in Federal Grant funding. Some of our major entitlement and competitive programs include ESSER, Title I, Title II, Title IV, IDEA, Perkins, Adult Education and Literacy, and Title I – School Improvement. Additionally, we also receive funding from Food and Nutrition and Trust Funds.

TITLE I

Title I, Part A (Title I) of the Elementary and Secondary Education Act of 1965 (ESEA) supports reforms and innovations to improve educational opportunities for low-achieving students. Title I is designed to provide all children with a significant opportunity to receive a fair, equitable, and high-quality education, and to close educational achievement gaps. To this end, Title I helps local educational agencies (LEAs), and schools meet the educational needs of low-achieving students in schools with high concentrations of students from low-income families. On December 10, 2015, President Obama signed into law the bipartisan Every Student Succeeds Act (ESSA), which reauthorizes the ESEA. The new law allows SEAs and LEAs the opportunity to broaden their definitions of educational excellence while maintaining critical civil rights for all students. Additionally, the ESSA includes provisions designed to enable SEAs and LEAs to focus on providing students with the diverse, integrated curriculum and learning experiences necessary for a well-rounded education.

A Title I school-wide program, in which St. Louis Public Schools participates, is a comprehensive reform strategy designed to upgrade the entire educational program in a Title I school to improve the achievement of the lowest-achieving students.

A school operating a school-wide program may use Title I funds for any activity that supports the needs of students in the school as identified through the comprehensive needs assessment and articulated in the school-wide plan. In designing and implementing the school-wide plan, a school must implement strategies that:

- 1 Provide opportunities for all children to meet challenging State academic standards.
- 2 Use methods and instructional strategies that strengthen the academic program in the school, increase the amount and quality of learning time, and help provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education; and
- 3 Address the needs of all students, but particularly those at risk of not meeting challenging State academic standards.

TITLE II

The purpose of this federal grant program is to increase student achievement through comprehensive district initiatives that focus on the preparation, training, recruitment, and retention of effective educators. The goal is to improve the overall effectiveness of all educators, making those activities that focus on educator effectiveness a high priority. After conducting a needs assessment, districts may implement activities that have been based on a review of scientifically based research and address their needs in the areas of professional development, recruitment, preparation, and support.

TITLE IV.A

Title IV, Part A, also known as the Student Support and Academic Enrichment (SSAE) grant program, is a relatively new federal Title grant program under the Every Student Succeeds Act (ESSA). The purpose of this annual program is to improve access to a holistic education. Missouri received approximately \$16 million dollars in the 2019-2020 fiscal year. Title IV, Part A funds are distributed to Local Educational Agencies (LEAs) as a formula grants to LEAs that spent Title I, Part A awards during the prior fiscal year.

Title IV, Part A is for improving student academic achievement through activities and programs in three broad areas:

Well-Rounded Education

STEM, Music, Art, Health Education, Physical Education, Computer Science, CTE, Social Emotional learning, dropout prevention, and more

Safe and Healthy Students

Mental health services, violence prevention, counseling, trauma-informed practice, school climate and safety initiatives, integrated supports for students and families, and more

Effective Use of Technology

Instructional support, specialized professional development, blended and personalized learning, securing open and free resources, infrastructure and digital devices and more.

TITLE I (a) – SCHOOL IMPROVEMENT

The purpose of this grant is to provide all children significant opportunity to receive a fair, equitable, and high-quality education and to provide adequate resources to substantially raise the achievement of students in lowest-performing schools.

INDIVIDUALS WITH DISABILITIES EDUCATION ACT (IDEA)

The purpose of this federal entitlement grant program is to provide funds to ensure that eligible students with disabilities receive a free and appropriate public education that includes special education and related services designed to meet their individual needs. Funds available are intended to serve eligible students with special education services and activities deemed essential for students' success in school. Services and activities supported by this grant for students ages 3 through 21 must ensure compliance with state special education laws and regulations and the Individuals with Disabilities Education Act.

EARLY CHILDHOOD SPECIAL EDUCATION (ECSE)

The Early Childhood Special Education Allocation (ECSE) Grant provided funds to school districts to build capacity and to ensure that eligible 3, 4, and 5 year old children with disabilities are appropriately identified as eligible for special education and receive developmentally appropriate special education and related services designed to meet their individual needs in accordance with the Individuals with Disabilities Education Act - 2004 (IDEA-2004) and Massachusetts Special Education laws and regulations.

CARL D. PERKINS

The Carl D. Perkins Career and Technical Education grant provides an increased focus on the academic achievement of career and technical education students. The focus is on accountability and program improvement, connections between secondary and post-secondary education, linking CTE to rigorous academic standards, and a strong focus on business and industry.

ADULT EDUCATION AND LITERACY (AEL)

The Missouri Adult Education and Literacy (AEL) Program provides assistance that helps Missouri adults get the basic skills they need to be productive workers, family members, and citizens. The major areas of support are Adult Basic Education, Adult Secondary Education, and English Language Acquisition. These programs emphasize basic skills such as reading, writing, math, English language competency, and problem-solving.

EQUITABLE SERVICES FOR NONPUBLIC SCHOOLS

The Every Student Succeeds Act (ESSA) requires local educational agencies (LEAs) to provide equitable participation to eligible private school children, teachers, and other educational personnel in programs under the Act.

ESSA prohibits private schools from obligating or receiving ESSA funds. The control of funds used to provide equitable services is maintained by the LEA. Materials purchased with the funds are administered by the LEA and remain the property of the LEA. Services must be provided by an employee of the LEA or through a contract by the LEA with an individual or entity independent of the private school and any religious organization.

ESSA requires that timely and meaningful consultation occurs between the LEA and private school officials prior to any decision that affects the opportunities of eligible private school children, teachers, and other educational personnel to participate in programs under the Act. This consultation must continue throughout the implementation and assessment of activities under the Act. The goal of consultation is to reach an agreement between the LEA and appropriate private school officials on how to provide equitable and effective programs for eligible private school children under Title I, Part A; Title II, Part A; Title III, Part A; and Title IV, Part A.

Below is a list of the schools and allocations that SLPS manages on their behalf.

FOOD AND NUTRITION SERVICES

The Food and Nutrition Services Section administers the USDA Food Distribution Program and the following USDA Child Nutrition Programs: National School Lunch Program (NSLP), School Breakfast Program, Special Milk Program, and the Fresh Fruit and Vegetable Program. Under the NSLP, the After School Snack Program and Seamless Summer Option are also available. The programs are operated in public, non-public, and residential childcare institutions. The goal of the Food and Nutrition Services Section is to provide safe food and technical assistance to ensure well-balanced nutritious meals are served to the students of Missouri.

LOCAL GRANTS

Trust funds are money provided to a school or the District by individuals or groups for a specific purpose and contain conditions or qualifications for its use. These funds typically include an application process; identification of specific allowable use of funds and/or return of unspent funds; detailed reporting requirements; and/or an evaluation of the impact or results gained from the grant-funded program. All trust funds may be used only for purposes consistent with School Board policies and accompanying procedures and where applicable, federal and state laws/regulations and the rules of other regulatory agencies.

ESSER FUNDING

On April 23, 2020, the U.S. Department of Education (USED) announced \$13.2 billion for states under the Elementary and Secondary School Emergency Relief (ESSER) Fund in the Coronavirus Aid, Relief, and Economic Security (CARES) Act. On December 27, 2020, the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSA), was signed into law, providing an additional \$54.3 billion for the Elementary and Secondary School Emergency Relief Fund (ESSER II Fund).

The ESSER II Fund provides State Education Agencies (SEAs), and their local educational agencies (LEAs), with emergency relief funds to address the impact that COVID-19 has had - and continues to have - on elementary and secondary schools across the country. These funds were provided so that school districts could think creatively around instruction by using these funds to facilitate new instructional delivery methods - focusing on investment in the technology infrastructure and professional development and training that will help all students continue to learn through some form of remote learning when deemed necessary. [Click link for SLPS ESSER update](#)

The American Rescue Plan (ARP) Elementary and Secondary School Emergency Relief (ESSER), also known as ESSER III, was enacted on March 11, 2021. ARP ESSER (ESSER III) provides a total of nearly \$122 billion to States and Local Education Agencies (LEAs) to help safely reopen and sustain the safe operation of schools and address the impact of the coronavirus pandemic on the nation’s students.
