

Pre-k Choice Board

Listening

[Click here](#) to join Miss Penny and the KidVision Kids on a field trip as they explore the Museum of Discovery and Science's Science Park. Learn about simple machines and share your newfound knowledge!

 What did you learn? "I learned about various simple machines, including pulleys, wheel and axles, levers, and inclined planes."

Listening

[Click here](#) to listen to "Jack and the Beanstalk." Discover the reason Jack goes to the market, learn what he brings home to his mother, and find out how the problem gets solved in the story.

 Why does Jack go to the market, and what does he bring back home? How is the problem resolved? Jack goes to the market to sell a cow but ends up trading it for magic beans. Excited, Jack brings the beans home to show his mother. However, she becomes upset and throws them out the window. Later, Jack discovers a beanstalk that leads him to find gold, resolving his problem.

Speaking

[Click here](#) to learn about money and its uses. Discover what people use money for. Draw an item you would like to buy with money and share your reasons for wanting to purchase it with a grown-up.

 "People use money for various things, such as buying groceries, gas, and paying bills. When I grow up, I plan to use money to buy a robot that can help me clean my room."

Speaking

[Click here](#) to watch a video tutorial on creating a house map. Follow along and design a map of your own home, then share your creation with a family member or friend..

 "I drew all the rooms in the house, including the living room, kitchen, and bedrooms. I also added furniture to each room in my drawing."
