Summary Statements

Summary of the Strengths

Family and Community Engagement initiatives showcase strengths in sponsoring informative parent workshops, fostering accessibility through an open-door policy for school leaders and teachers, and facilitating seamless communication channels via phone calls, emails, and text messages.

Our teaching staff consistently implements grade-level instructional resources and actively seeks feedback and support. Teachers have participated in ongoing professional development in ELA and Math at the school level, along with receiving differentiated group support.

Summary of the Weaknesses

Teachers require additional professional development and support to deliver instruction that is affirming and relevant to students' identities and experiences.

In the 2024-25 academic year, Lyon will prioritize areas identified as needing improvement based on the assessment data from 2023-24. Our overarching mission is to provide comprehensive support to students, fostering academic, social, and emotional growth.

The procedures established by the Attendance Team have been effective in addressing the root causes of attendance concerns, but both the Attendance and Student Support Teams need to further refine these procedures and evaluate the effectiveness of the caseload mode

Summary of the Needs

Teachers require ongoing instructional support in implementing the ELA and Math curriculum, with a particular focus on scaffolding grade-level content for students who are significantly below grade level. Additional support is also needed for teachers to effectively utilize district curriculum programs and make content relevant and affirming for students. Students who are reading significantly below grade level will receive additional support from a Reading Intervention Teacher/Supplemental Reading Teachers will work with individuals and small groups to improve reading skills. Continued support from Counselor and Social Worker will ensure a team-based approach to addressing students' social-emotional needs.

Based on your needs assessment and Mathematics data, what are your two mathematics priorities? The areas you choose should be intentional and be the key levers that allow you to drive toward achieving your Mathematics SMART Goal. <i>Please identify two areas of focus that most align with this goal.</i>				
Priorities:
