

# Children and Youth with Special Health Care Needs (CYSHCN) Program

## Description

The CYSHCN Program provides assistance statewide for individuals from birth to age 21 who have or are at increased risk for a medical condition that may hinder their normal physical growth and development and who require more medical services than children and youth generally. The Program focuses on early identification and service coordination for individuals who meet medical eligibility guidelines. As payer of last resort, the CYSHCN Program provides limited funding for medically necessary diagnostic and treatment services for individuals whose families also meet financial eligibility guidelines.
