Inclusive Restroom Design

May 28, 2024

Typical Toilet Stalls

- Shorter height partitions
- Partial height doors
- Use - sensitive latching
- Less private

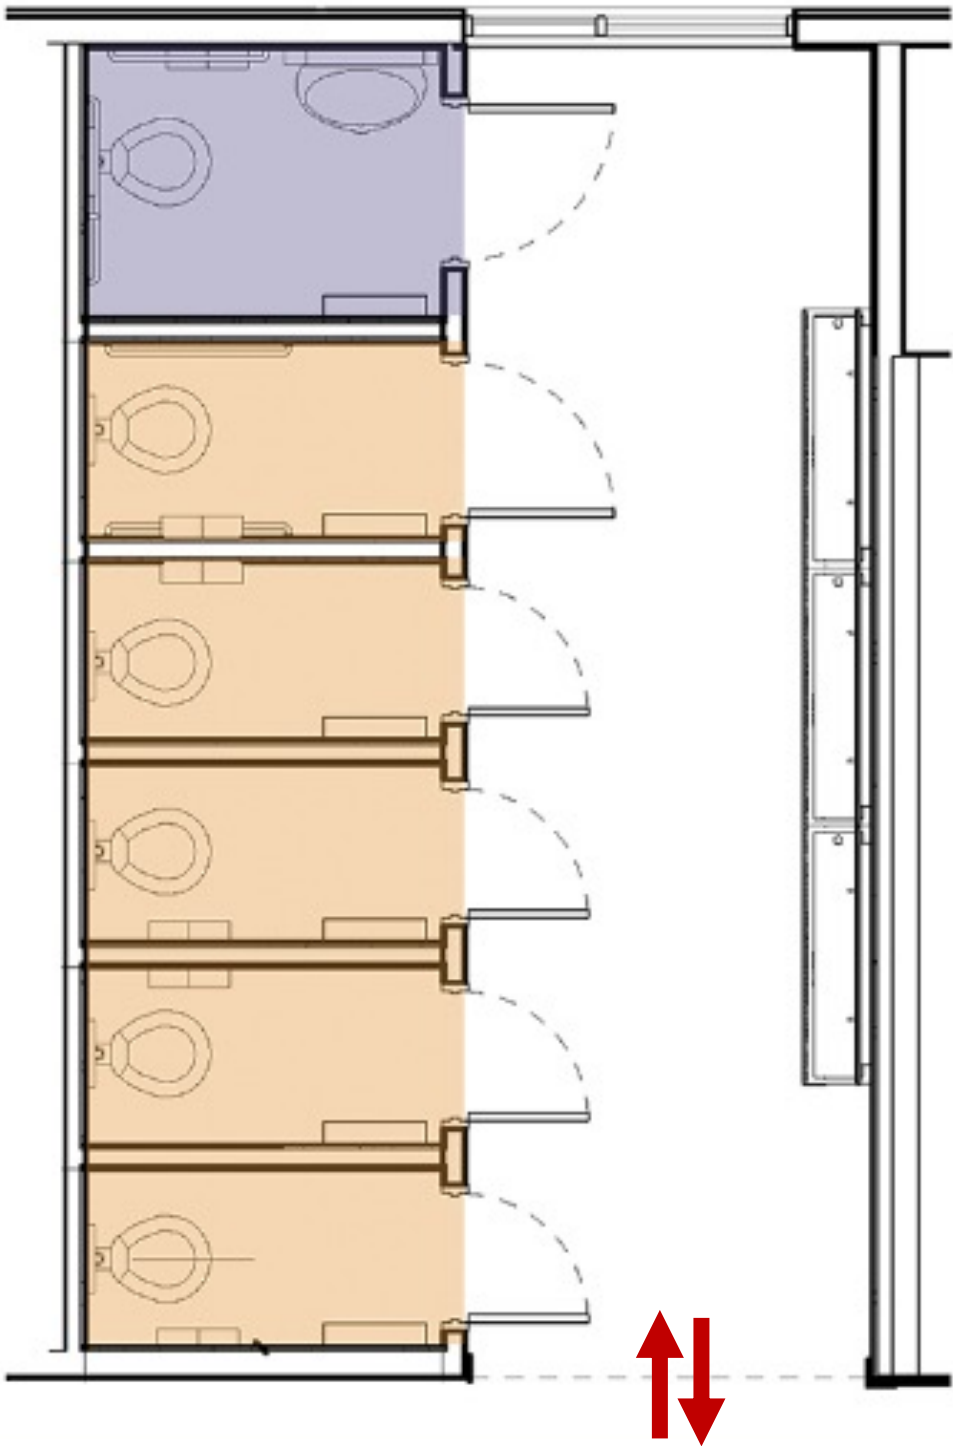

Inclusive Restroom Toilet Stalls

- Taller height partitions
- Full height doors
- Door handle & lock
- Occupancy indicators
- More private

Typical Inclusive Restroom Layout

Hallway

Survey Engagement Using Kahoot & Worksheet Question Topics:

- Inclusive Multi-Stall Restroom Understanding
- Students Identity
- Student Safety & Concerns
- Student Experience with Inclusive Multi-Stall Restrooms
- Comfortability with New Restroom Types

Questions (13) [Show answers](#)

- 1 - Slide
WELCOME TO THE SURVEY
- 2 - Poll
To which gender do you most identify?
- 3 - Poll
Do you identify as transgender, non-binary, or gender fluid?
- 4 - Poll
What is your current grade?
- 5 - Poll
How safe do you feel using the current, gender specific restrooms?
- 6 - Poll
Would you feel comfortable using a multi-stall gender neutral restroom as presented?
- 7 - Poll
Do you agree with this statement: Restrooms should stay gender specific (girls & boys only)?

Survey Engagement Results:

- Results Gathered from Over 110 Students Ranging from 9th – 12th Grade.

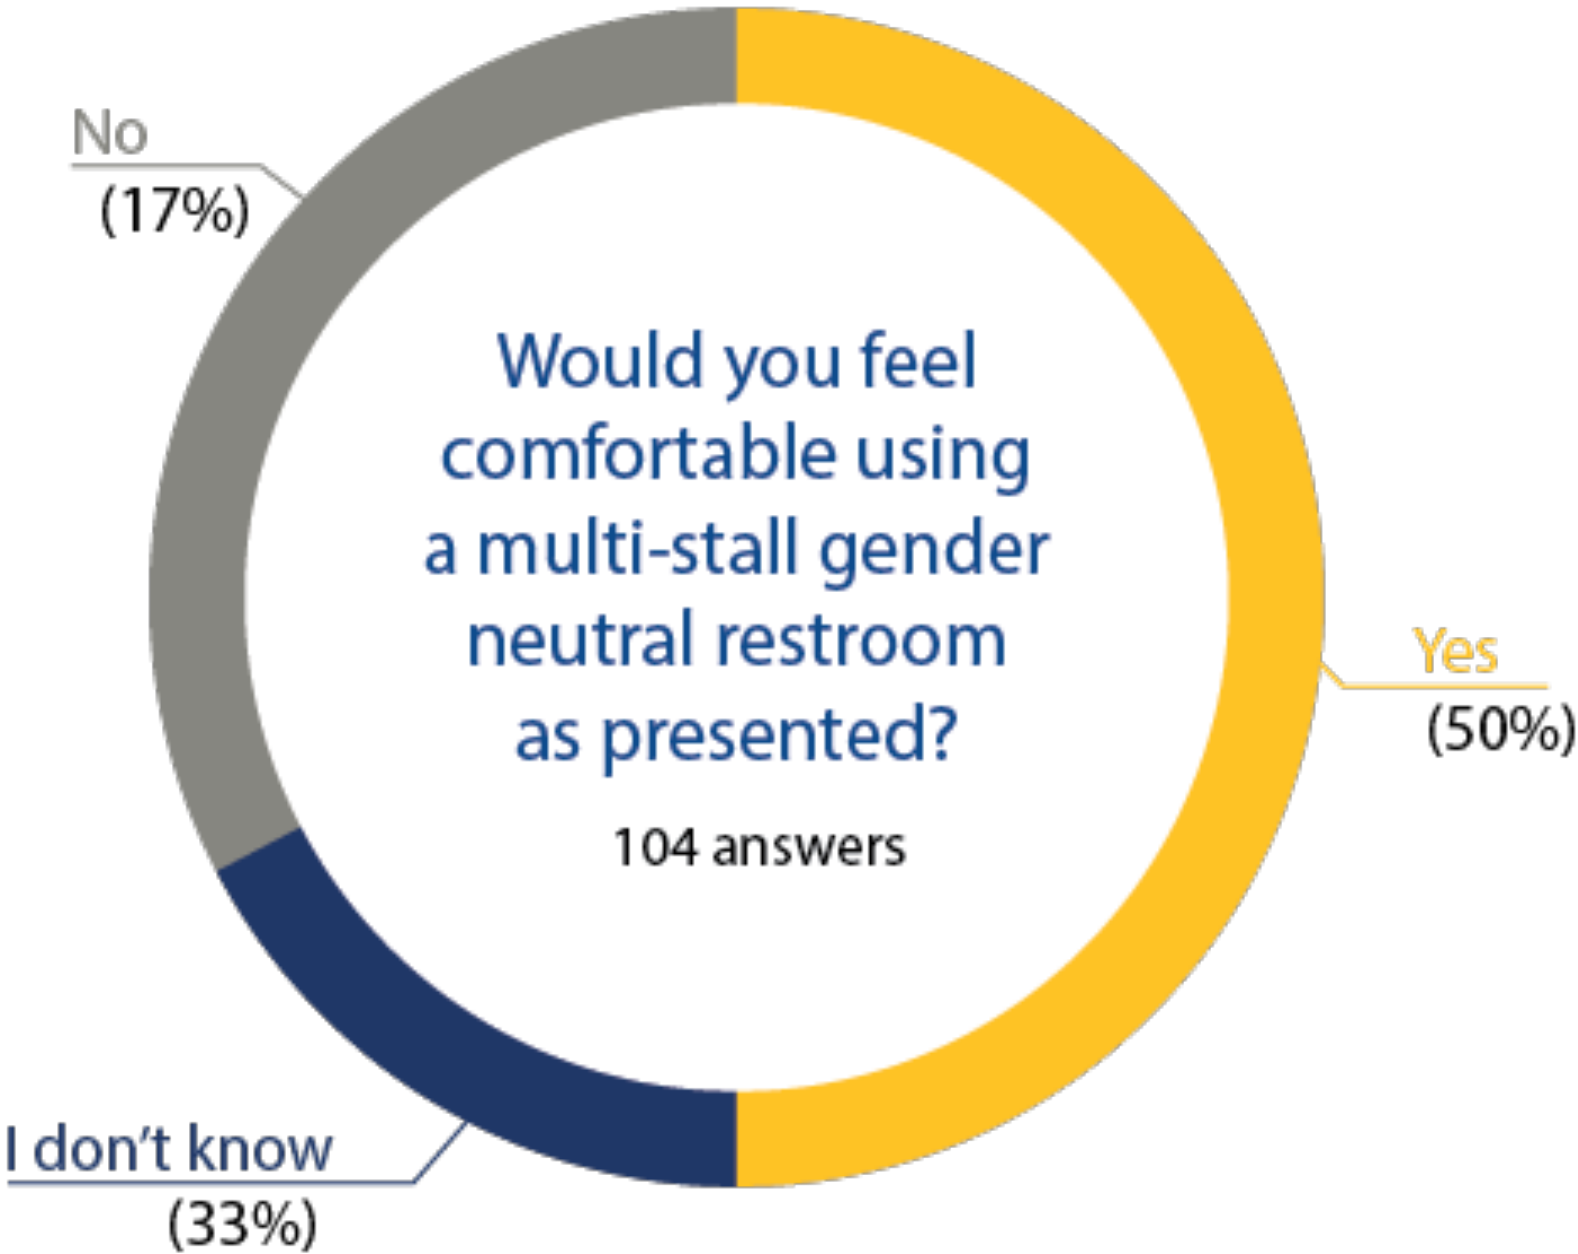

1. **16%** of students identified as transgender, non-binary, or gender fluid.

2. **50%** Said they would feel comfortable using an Inclusive multi-stall restroom as presented.

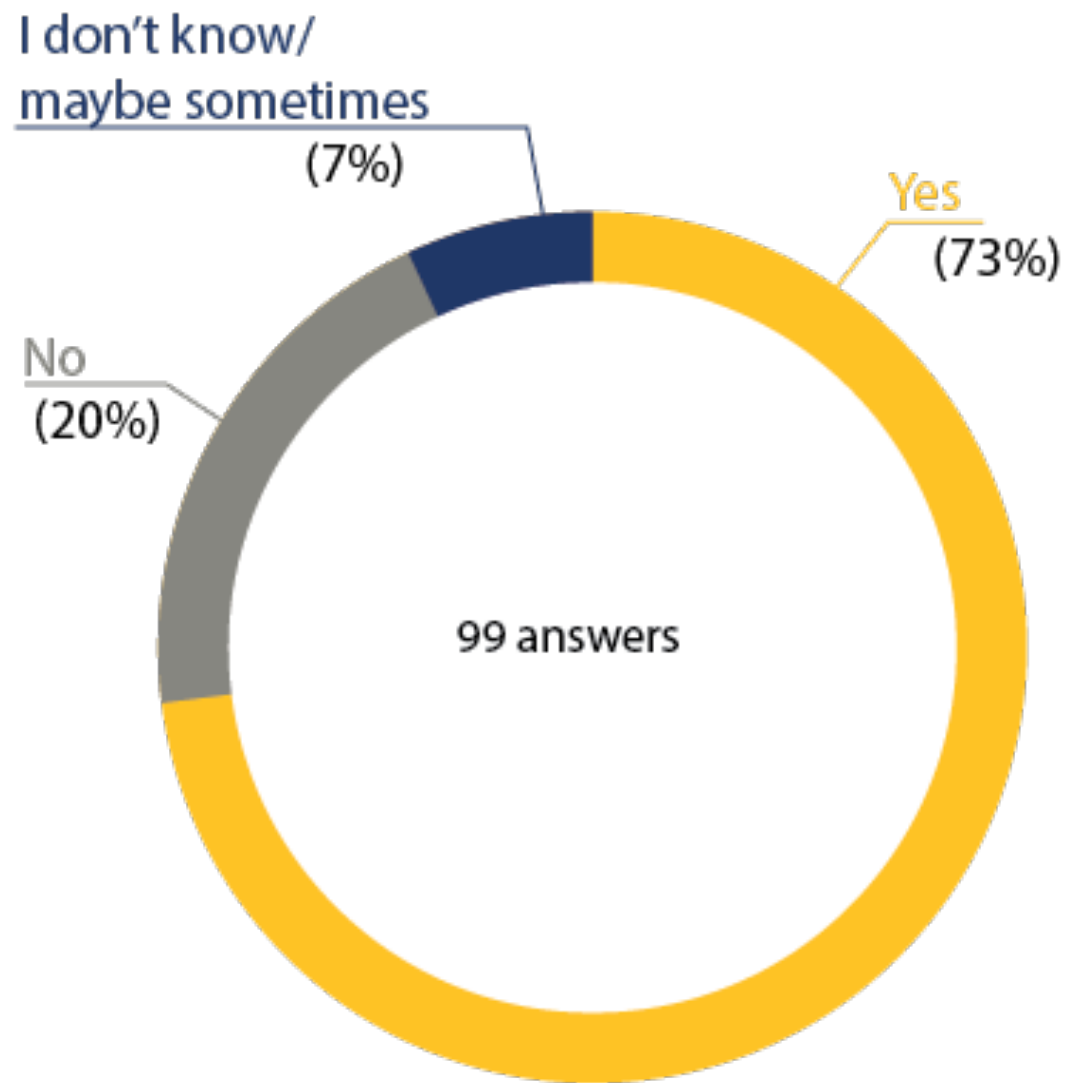

3. **58%** Agreed that restrooms should stay gender specific.

4. **17%** Said they would not feel comfortable using Inclusive multi-stall restrooms.

5. **52%** Would choose an Inclusive multi-stall restroom over an individual unisex restroom.

Do you have any personal safety concerns about the current restrooms? (Please write comments)

Some of the answers were:

Yes, you can see over the stalls and under

Yes. I feel like people are watching me while I use the restroom

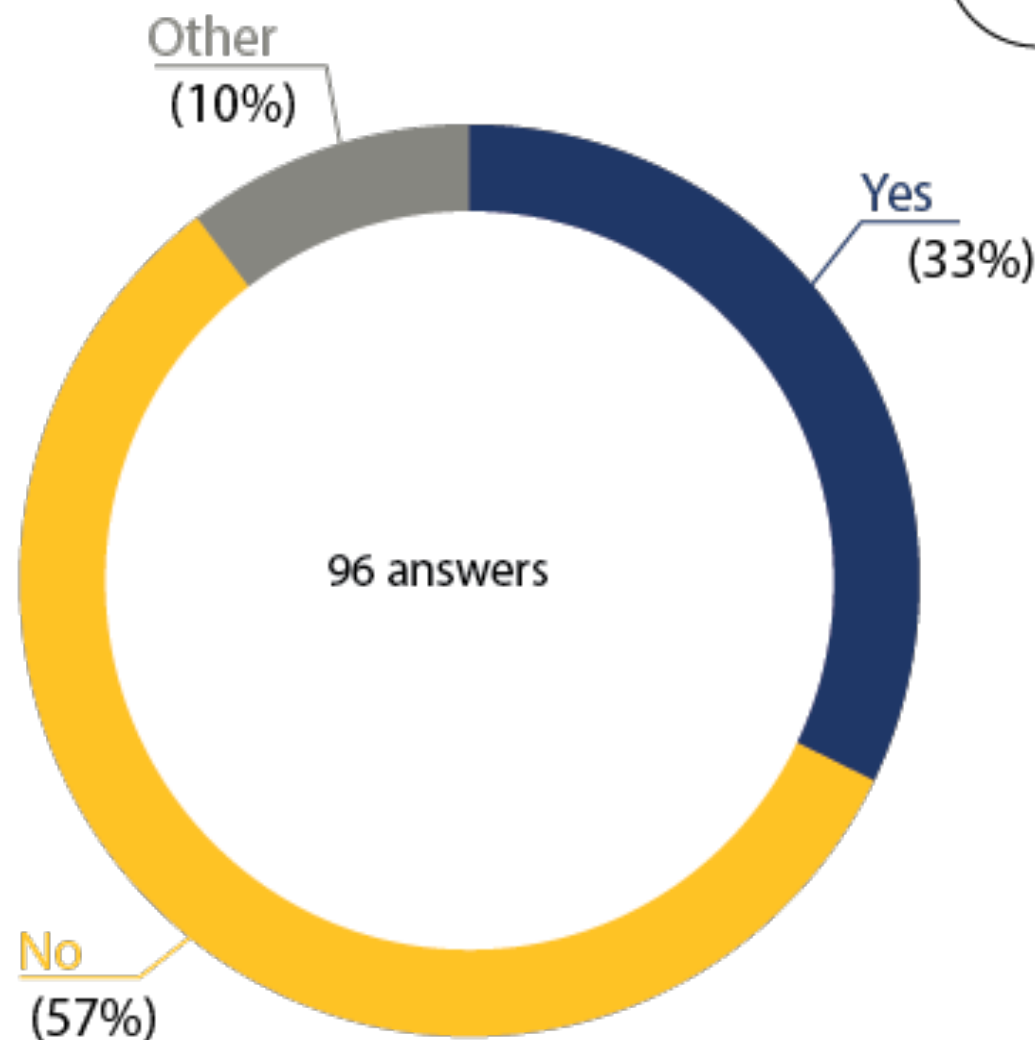

Taller people are able to see over that stall. I don't like that

They are unsanitary and broken

Yes, I'm concerned for the current trans kids here. We don't feel that safe

Do you have any concerns with multi-stall gender neutral restrooms? If so, please explain.

Some of the answers were:

No, I like them, I really feel like they should be like the pictures

No. I think that they look great, and I actually felt safer when I used a gender-neutral bathroom with a similar design

Yes, I'm concerned that people that are non-binary might take advantage of this opportunity and use it for the wrong purposes. I also don't think it's fair to make the design better when they come in

Sanity issues with the door handles, maybe we could do slide doors or a door less interactive

Yes, because some people might do other things than use the bathroom also I feel that it is unfair because the other bathrooms not gonna look as good as the new one
