Deaf/Hard of Hearing – Post-Secondary
Accommodations Resource List

Important Concepts:
There is often confusion regarding the responsibility of support services that a Deaf or Hard of Hearing student may need to successfully navigate the post-secondary education options. Unlike a K-12 setting , it is the post-secondary student's responsibility to self-identify, seek assistance from and utilize services from a disability or access services or center.

*Please select either **Available, Not Available or Can be Arranged** for each of the questions below in each section.*
