Redos and Retakes System

***Feedback will be provided to parents through email or comments on their work in their ClassDojo portfolio.**

***All work is used to measure progress and provide effective feedback of progress. If an assignment requires a redo to help a student better understand a topic, parents will be notified.**

***Every student is allowed a second attempt or retake. Although students are encouraged to do their best the first time they will not be penalized for a retake.**

***Due dates are posted on weekly lesson plans. Parents will be notified when due dates are missed with what assignments are missing and information on opportunities to complete the task.**
